RESUME

Lautaro Capella

Full stack Senior Developer.
Software Architect.

laucape@gmail.com
+549 3547 468187

Skilled developer with strong analytic profile. Started coding at 13 years old and professionally, as an ABAP developer, 15 years ago. Through the years took part in several high end projects. Since last 5 years turned into Front-end developer (primary over SAP ecosystem), Technical lead, Functional specialist, Back-end developer (SAP ERP, HANA XS and Node.js) and Cloud Architect (SAP CPI, SAP BTP, SAP Gateway).

Proactive researcher and problem solver, really enjoys challenging scenarios and new technologies, taking part in the entire process from discovery to delivery. Solid Git and management tools understanding. Self organized, handles efficiently mutliple tasks with different priorities for himself, and his co-workers when in a lead role.

C2 Proficient English level (CEFR standarized test), active listener and strong commitment to teamwork, methodologies, project roadmap and milestones. Also active stackoverflow member, dedicated family man and proud private pilot.
